Marine Geology Volume 148, 1998

Research Papers

Sedimentation on young ocewan floor at the Mid-Atlantic Ridge, 29°N
Mitchell, N.C, Allerton, S., and Escartín, J. 1
Geochemistry of a sealed deep-sea borehole on the Cascadia Margin
Schlüter, M., Linke, P. and Suess, E. 9
Cenozic sedimentation and clay mineralogy in the nothern part if the Magellan Trough, Central Pacific Basin
Aoki, S. and Kohyama, N. 21
Structure and morphology of submarine volcanism in the hotspot region around Réunion Island western Indian Ocean
Fretzdorff, S., Stoffers, P., Devey, C.W. and Munschy, M. 39
Validation of a Boussinesq model of beach ground water behaviour
Baird, A.J., Mason, T. and Horn, D.P. 55
The relation between shear velocity and suspended sediment concentration over dunes: Fraser Estuary, Canada
Villard, P. and Kostaschuck, R. 71
Quaternary history of the Antartic Circumpolar Current: evidence from the Scotia Sea
Pudsey, C.J. and Howe, J.A. 83
Sediment resuspension and implications for turbidity maximum in the Changjiang Estuary
L. Jiufa and Z. Chen 117
Authigenic phillipsite in deep-sea manganese nodules from the Clarion–Clipperton area, NE equatorial Pacific
C.H. Lee and S.-R. Lee 125
Basement geology from Three Kings Ridge to West Norfolk Ridge, southwest Pacific Ocean: evidence from petrology, geochemistry and isotopic dating of dredge samples
N. Mortimer, R.H. Herzer, P.B. Gans, D.L. Parkinson and D. Seward 135
Storm-driven variability of the beach–nearshore profile at Duck, North Carolina, USA, 1981–1991
G.-h. Lee, R.J. Nicholls and W.A. Birkemeier 163
Evaluation of depth of closure using data from Duck, NC, USA
R.J. Nicholls, W.A. Birkemeier and G.-h. Lee 179
Suspended sediment transport and nearshore bar formation on a shallow intermediate-state beach
T. Aagaard, J. Nielsen and B. Greenwood 203
